

FRP HOLE FORMERS

Low-Draft
Precision
Fiberglass

- Made of tough, durable, long-lasting fiberglass
- Heavy wooden reinforcement
- Low draft 1.5° taper for use with PSX:Direct Drive and other boot-type flexible connectors
- Smooth surfaces and low draft make removal easy

For Standard Round Manholes

- Available in diameters from 8" to 56"
- Manhole ID's of 36", 48", 60", 72", and 96"
- Manhole wall thicknesses of 4", 5", 6", 7", and 8"
- Special wall thickness is also available

For Straight Wall Structures

- Available in diameters from 8" to 56"
- 3" to 8" wall thickness (standard).

Parallel Hole Formers

- Provides parallel 8" dia. or 11" dia. holes
- Standard 26.25" center-to-center spacing
- Available for 48", 60", 72", 84" and 96" ID structures, such as wet wells, lift stations, pump stations, etc.

Magna-Former Magnetic Holding

- Many sizes can be used with Magna-Former magnetic holding system
- U.S. Patent No. 6110402
