

CORE-MATIC

New Generation

What It Is

Multi-coring machine with two auto coring units. One offsetting turntable and two standard turntables (simultaneous double coring, bi-directional coring, and offset hole capability)

Smarter

- Automatic bit retract.
- Automatically detects and corrects “stuck bit situation”.
- Readouts in both inches and metric units.

Faster

- Semi-automatic coring.
- Automatic core pressure setting.
- Built in encoder for precise drill carriage location at all times.

Safer

- Cordless remote with E-Stop.
- Barrier guarding added to address OSHA concerns.
- No steps to trip on with floor mounted operator control panel.
- Stand alone operator control panel mounts away from the machine.
- Audible alarm sounds when carriage reverses direction.

Productivity Options

- Bi-directional coring.
- Ability to core two straight through holes in the same structure at once.
- Offsetting turntable for coring parallel holes.
- Spindle carousel for 4-8 spindles.
