

PSXTM: Multi-T

THE PREMIERE SERVICE TAP

PSX: Multi-T is a patent pending solution for corrugated HDPE/PP and SDR 35 PVC pipe installation that simplifies your inventory.

WHAT IT IS

PSX: Multi-T is an innovative lateral connection solution for gravity flow dual wall corrugated HDPE/PP and SDR 35 PVC. Featuring a specialized rubber sleeve designed to match the internal radius of your pipes, our 3-part system with a unique anti-over insertion design allows for seamless tapping of existing lines, ensuring precision and reliability in every connection. Upgrade to PSX: Multi-T for unmatched ease and accuracy in your lateral connections.

3-Part System Includes:

- Rubber Sleeve
- PVC Hub with Rubber Gasket for incoming pipe
- Stainless-Steel Clamp

Hole saws sold separately

Hub insertion demonstration

Torque wrench sold separately

WHY IT'S BETTER

- Simplified inventory with a single sleeve to cover corrugated mainlines from 12"-60" diameters.
- The PSX: Multi-T can tap into numerous diameters with one sleeve (see charts, page 2), reducing mainline-differentiated inventory.
- Minimize installation errors to complete projects on time.
- Mitigate risk of over insertion.
- Lower risk of leaks for reduced maintenance costs.

PERFORMANCE

PSX: Multi-T meets or exceeds the material requirements of the following specifications:

- ASTM C 923
- ASTM C 1478
- ASTM F 477

* Due to smaller OD of incoming corrugated requires alternate connecting hub ID. Non-Stock items may have longer lead times & minimum order requirements.

3-PART SYSTEM

- 1** PVC Hub
- 1a** Rubber Gasket
*Inserts into bell of hub
- 2** Stainless-Steel Clamp
- 3** Rubber Sleeve

¹ Contact Customer Service to confirm lead times for 8" and 10" PSX: Multi-T.

Not all applications are standard or watertight; therefore, please contact Press-Seal for technical assistance.
